YOUR WATER EXCHANGE

H2OX is a 'state-of-the-art' exchange built specifically for the secure, transparent and efficient electronic trading of water entitlements and allocations. The exchange provides a single point of liquidity, creating market depth. And because we don't trade ourselves, all members have access to a fair and equitable market without conflicts of interest.

SIMPLE AND SECURE TRADING

Easy to understand and operate technology

Water Sharing Plan Trading Rules support the different water trading zones and are electronically built into the exchange. This allows members to immediately know the likely outcome of a bid and offer price match:

- **Green** — The bid and offer comply with the rules
- **Red** — The bid and offer do not comply with the rules
- **Orange** — There are conditions attached

-  Directly linked to Government water registries & related agencies
-  Quick accessibility to large volumes of water for brokers
-  No more 'over-the-counter' manual transactions
-  Strict rules, regulations and a code of conduct
-  Easy to understand and operate technology
-  Cutting-edge exchange technology
-  Transparent trading environment
-  Secure clearing and settlement

 24/7 REAL-TIME TRADING

OUR TEAM HAS EXTENSIVE EXPERIENCE IN INVESTMENT BANKING, BUSINESS, TECHNOLOGY & MOST IMPORTANTLY, THE WATER INDUSTRY

H2OX Membership Rules legally protect the interests of Broker members and their clients, and facilitate full electronic trading. By using the H2OX platform, members are able to buy and sell water entitlements and allocations online, ensuring fast and lower cost trading.
